book. I finished reading it early this morning, by 2:00 a.m., and I was supposed to wake up at 5:30 a.m., to go to work. I was not able to wait until the next evening to finish it because the story had me so deeply involved that I had to know what was going to happen. I've read several romance books and this one is by far, THE BEST OF THEM ALL!!!. It's a true original masterpiece. This book made me cry of joy, made me laugh until my stomach hurt (so much that my husband would look at me as if I was going mad), made me feel like you will get everything you want out of life only if you want it very badly. Morgan is the ultimate hero, he's for lack of better words the personification of all a woman could want in a man, he's honest, proud, loving, mysterious, a savage gentleman and on top of all, irresistibly handsome, what a combination! Sabrina is innocent, beautiful, courageous but has been spoiled by everybody. They go through several obstacles most of them placed between them by themselves. Their story is full of love, passion, betrayal, danger and humorous anecdotes. I want to thank Ms. Medeiros for ever thinking of becoming a writer and for bringing, to the world of us readers, such joy through her work.0 von 0 Kunden fanden die folgende Rezension hilfreich. Buy this bookVon Ein KundeI loved this book from start to finish. I don't even know if I can review it without just plain old gushing over it. I really felt for these characters. I saw how pride and anger can make people say and do the opposite of how they feel. I saw how men (and women) of vision sometimes have to do what is hard and painful in order to serve the greater good. As in all of the books by this author there is a happy ending, yet there were enough twists and turns for me to make me appreciate the ending all the more. This was perhaps her only book with a strong mother character and that was nice to see. The main characters are very fleshed out and of course there is lots of humor and smoldering passions. There is a little bit of 20th century ideals that I wonder if they really would have had a place in Scotland 300 years ago, but I can willingly forgive those things. This is a wonderful book, perhaps my favorite of the author's. You will reread it many times over--promise!0 von 0 Kunden fanden die folgende Rezension hilfreich. Ummmmmmmm.....How to describe this book.Von Ein KundeFor all the praise this book has gotten from other reviews, I was really disappointed in the way this book dragged on and on. I bought this book after recommended it and I saw the high praise from other reviewers. I am not saying it is a bad book, but it really drags sometimes. Sabrina and Morgan are both to hung up on the past and all the fighting that has happened with their clans. The whole story hinges on this Eve character, who is the bad person. I had this figured out in the first chapter. I guess if you had to have a long book for a car ride or an airplane ride that this would be for you, but otherwise skip this one.

KurzbeschreibungAs she peered over the edge of the gallery, Sabrina Cameron trembled at the sight of the sun-bronzed giant striding into view. But she never recognized the stranger...not until the moment she found herself surrounded by arms of warm steel and drowning in smoldering green eyes that had once held cool disdain but now shimmered with passion. Morgan MacDonnell, the boy, had been her tormentor. Now it looked as if Morgan, the man, would prove infinitely more dangerous...Though hatred divided their clans, Morgan MacDonnell had come to Cameron Glen hoping for a truce...only to find that by evening's end the only way to avert bloodshed between the two families was for him to marry his enemy's daughter. But even as Morgan spirited Sabrina away to his rugged fortress, his battle would not be won. For this delicate rose of a girl would put up a bold fight...and the spoils of victory would be nothing less than a heathen MacDonnell's heart.From the Paperback edition.KurzbeschreibungAs she peered over the edge of the gallery, Sabrina Cameron trembled at the sight of the sun-bronzed giant striding into view.
