Atemloses DebtVon Thrawn95Ein tolles Erstlingswerk mit einem tollen Helden-Duo, spannender Action und einem besogniserregend realistischem Plot mit vielen Wendungen!Einige Charaktere htten ein wenig mehr Tiefe vertragen,

aber ansonsten war es ein super Lesevergnügen! Ich freue mich schon auf weitere Bücher von diesem Autor.

Kurzbeschreibung When Barrett Ross visits an old Army buddy in Dubai, he's looking to unwind and forget. But when he steps onto the wrong floor of his luxury hotel he finds bodies strewn across the hall. A dying tourist begs him to carry a backpack to the American Embassy. In doing so, Barrett is thrust into a whirlwind of violence, deceit, and betrayal, as foreign operatives hunt for the secret that falls into his hands. Suddenly at his side is Sada, a stunning female Mossad agent whose agenda is as unclear as her identity. A chilling discovery sends the pair careening across three continents, saddled with a story no one believes. When a black ops unit infiltrates onto American soil, Barrett realizes only he can stop this threat. But first he'll have to find a secret that's lain buried for fifty years in a West Virginia coal mine.
